

Cresset Concrete Standards

CCS (Cresset Concrete Standards) is a photographic guide to help you specify high quality architectural concrete surfaces. Using the guide, you choose the concrete surface you want when you're writing contract documents and specifications. A tool to get agreement with all involved in the project...ahead of time. An abbreviated version of the CCS Guide is shown below:

Suggestion: Take a picture of the 4 color printed version and hold next to the hardened concrete surface. You do not need to be present to evaluate the surface...just look at the picture.
