Paver Reneu™

Rejuvenates and protects your concrete pavers

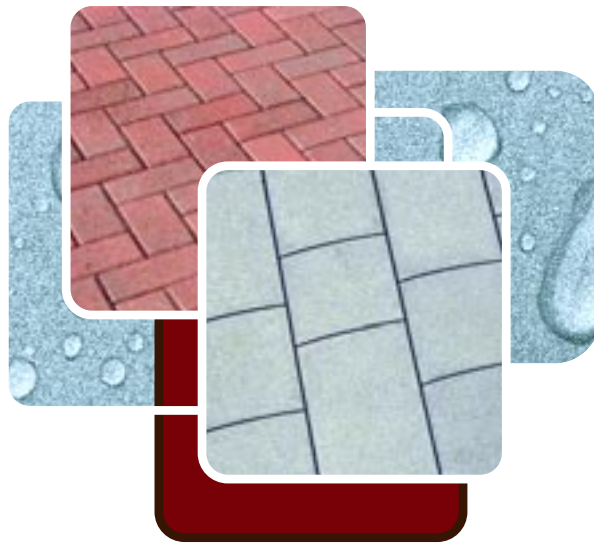

Rejuvenate and Beautify

Our complete line of products are designed to protect and enhance the appearance of concrete pavers.

The Paver Reneu line features water and solvent-base products that can be applied immediately, are easy to use, and fast drying.

Long-Term Protection

Paver Reneu products are tested to not yellow or color fade over time (even when exposed to constant sun light) and they allow pavers to “breathe” which prevents common moisture problems such as whitening and efflorescence. Paver Reneu also has the added benefit of preventing joint sand wash out.

BEAUTIFY AND PROTECT

Paver Reneu Flat
Paver Reneu Super Gloss
Paver Reneu Guard
Paver Reneu Stain
Paver Reneu Natural
Paver Reneu Vertical Stain

SURFACE PREP AND CLEANING

Paver Reneu Degreaser & Cleaner
Paver Reneu Etch & Efflorescence Remover
Paver Reneu Rust & Stain Remover
Paver Reneu Concrete Stripper

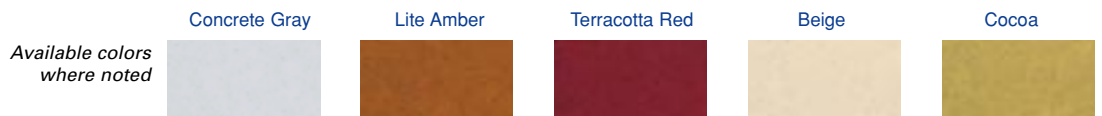

EPOXY COATINGS

Powercoat Epoxy HD
Powercoat Epoxy LD

ICE MELTING

Paver Thaw

The right products to meet your paver and concrete surface requirements.

Paver Renew™

Rejuvenates and protects your concrete pavers

Immediate Results • Easy to Use • Fast Drying • Seal and Protect

Meets VOC Requirements for all 50 States

Solvent Base

Paver Renew Flat

Ideal for applications where a non-glossy appearance is desired. Suited for new or existing pavers, horizontal or vertical concrete, masonry, stamped and decorative concrete surfaces.

Non-Gloss | Horizontal or Vertical Surfaces | Interior/Exterior

Paver Renew Super Gloss

The highest "solids" sealer on the market today offering superior gloss, greater long-term protection, fast drying and easy to use. Ideal for new or existing pavers, stamped and decorative concrete surfaces.

High Gloss | Long-Term Protection | Interior/Exterior

Paver Renew Guard

A deep-penetrating sealer that provides maximum long term protection with a semi-gloss appearance. Protects against damage caused by water, salts, deicer chemicals and acids.

Long-Term Protection | Semi-Gloss | Deep penetration

Paver Renew Stain

A ready-to-use colored protective coating that is non-fading. This coating enhances and revitalizes with a hardened, wear-resistant surface. Deep penetrating for uniform, long lasting color.

Ready to Use | Non-Fading | Uniform Color

Paver Renew Natural

A premium penetrating sealer that is breathable, water repellent with higher solids to provide maximum long-term protection while maintaining the natural appearance of pavers, concrete and masonry surfaces.

Maximum Protection | Natural Appearance
Horizontal or Vertical Surfaces

Water Base

Paver Renew Flat *Water Base*

Ideal for applications where a non-glossy appearance is desired. Suited for new or existing pavers, horizontal or vertical concrete, masonry, stamped and decorative concrete surfaces.

Non-Gloss | Horizontal or Vertical Surfaces | Interior/Exterior

Paver Renew Super Gloss *Water Base*

High solids sealer offering superior gloss, greater long-term protection, fast drying and easy to use. Ideal for new or existing pavers, stamped and decorative concrete surfaces.

High Gloss | Long-Term Protection | Interior/Exterior

Paver Renew Natural *Water Base*

A premium high solids penetrating sealer that is breathable and water repellent providing maximum long-term protection while maintaining the natural appearance of pavers, concrete and masonry surfaces.

Maximum Protection | Natural Appearance | Horizontal or Vertical Surfaces

Paver Renew Stain *Water Base*

A ready-to-use colored protective coating that is non-fading. This coating enhances and revitalizes with a hardened, wear-resistant surface. Deep penetrating for uniform, long lasting color.

Ready to Use | Non-Fading | Uniform Color

Paver Renew Vertical Stain *Water Base*

A ready-to-use colored protective coating that is non-fading. This coating enhances and revitalizes with a hardened, wear-resistant surface. Deep penetration into vertical surfaces for uniform, long lasting color.

Vertical Surfaces | Non-Fading | Uniform Color

Surface Preparation & Cleaning

Paver Renew Degreaser & Cleaner

Powerful industrial-grade cleaner that is specifically formulated to remove grease and oil stains, tire marks and dirt from concrete surfaces. This environmentally safe product is economical for lighter duty daily or weekly cleaning.

No Soap Scum | Will Remove Most Tire Marks | Bio-Degradable

Paver Renew Etch & Efflorescence Remover

Economical general purpose acid etch for effectively removing efflorescence, (white salt deposits), rust and other construction stains from concrete surfaces. Improves color uniformity and enhances appearance without damaging the surface.

Adds Depth to Colors | Improves Sealer Penetration | Non Fuming

Paver Renew Rust & Stain Remover

Effectively removes rust stains as well as hard water scaling from pavers, concrete, decorative rock and stucco. Removes leaf, grass and berry stains and may be used on landscape rock and retaining walls.

Use to Clean all Concrete Surfaces | Environmentally Safe

Paver Renew Concrete Stripper

Heavy bodied concrete stripper used to remove sealers, coatings and oil stains from concrete and masonry surfaces.

Easy to Use

Certi-Vex® Grip

Particle size controlled polymer additive for coatings and stains to increase slip resistance, create a fine texturing and reduce a glossy appearance.

Certi-Vex® Equipment Cleaner

Cleans and maintains spray equipment after use of sealers and other coatings. Quickly cleans overspray areas, nonflammable and can be used as a thinner.

Powercoat® Epoxy HD

Premium colored (or clear) breathable epoxy coating engineered to deliver superior strength and wear for a wide range of heavy duty, commercial and industrial applications.

Maximum strength | Interior/Exterior

Powercoat® Epoxy LD

Economical colored (or clear) breathable epoxy modified coating combining the strength of an epoxy with economy suitable for light duty applications such as driveways, walkways and garages.

Interior/Exterior | Economical

Ice Melting

Paver Thaw

Effective solution for ice removal from horizontal concrete surfaces. Use to quickly melt ice or to improve the performance of crystal type ice treatments. More effective than traditional ice-melting salts and will melt ice at temperatures to -20°F.

Non-corrosive | Environmentally Friendly | Easy to use

For over 30 years Vexcon has been at the forefront of developing and manufacturing products designed to protect and improve concrete and masonry.
