

## SuperDuty Ground Thawer

23' x 11' - 70lbs.

Price: **\$1498.00**

### Product Description

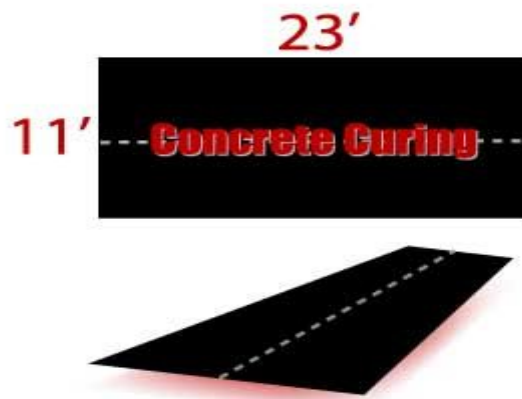

The SuperDuty Ground Thawer is our flagship blanket. It has 253 sq/ft of raw thawing and heating power, this blanket is extremely durable, fast, and efficient. Thaw up to 8" deep overnight, depending on soil content. No more costly weather delays due to snow, ice, or frozen ground. Simply connect the powerblanket to a 110V 20A outlet and let the blanket work its magic.

## Concrete Curing

23' x 11' - 70lbs.

Price: **\$1079.00**

### Product Description

This 23' x 11' Curing blanket, when connected to another will give over 500 sq/ft of coverage on just a single 110V 20A outlet. Maintains curing concrete at 65:F to 70:F in temperatures as low as -10:F. Masons drape over walls - no propane, no open flame - just 110 volts. Spalding, peeling, and cracking can be a thing of the past when using these powerful blankets to cover your cold weather projects

### Concrete Curing (Half-Size)

25' x 6' - 30lbs.

Price: \$779.00

### Product Description

This might be our most versatile blanket in the lineup. At 25' x 6' and 150 sq/ft (up to 600 sq/ft and 100 lineal ft. when four are connected), this blanket can be configured in numerous ways. Up to four blankets can be run on a single 110V 20A outlet. Maintains curing concrete at 65: F to 70: F in temperatures as low as -10:F. Masons drape over walls - no propane, no open flame - just 110 volts.

## 10'x10' Super Duty
