

STAMPCRETE COLORED RELEASE AGENTS

Packaging: 28 lb. Pail
12.7 kg. Pail

Coverage 1000 sq. ft.
Coverage 92.6 m²

STAMPCRETE Powdered Release Agents are a dry blend of chemical powders and color pigments, used to achieve accent colors and various color variation to textured surfaces in decorative stamped concrete. STAMPCRETE Release Agent allows the clean release of decorative stamps from the concrete surface by acting as a barrier between the concrete and the texturing tools.
