

Re-Do-It Resurfacing System

RE-DO-IT

Concrete Resurfacing System

The Re-Do-It overlay re-surfacing system is ideal for any type of old concrete surface, such as pool decks, casinos, hotel lobbies, shopping malls, restaurants, walkways, driveways, office buildings, airports, patios, resorts, etc. Re-Do-It can be used on both commercial and residential projects anywhere in the world.

Re-Do-It system can make your old concrete surface look like new and is offered in several different colors. By using the Texturing Stone, Ashlar Slate, or California Fieldstone stamping tools, you can achieve several different looks with this system. You can cut the surface into various designs such as slate, stone, diamonds, squares, circles, and borders. Colored water-based dyes or colored patina stains can also be used to enhance your projects.

This system is environmentally safe and can be installed without tying up areas for long periods of time, unlike traditional stamping. Re-Do-It is cost effective and requires little or no maintenance.
